# CEO'S MESSAGE

**Daium Butt**

**As the Founder of Tech Andaz, my vision is to offer an all-encompassing business productivity solution for any company.**

Helping people with meaningful and useful products, mobile apps, software, and hardware development and marketing is the core foundation of the company. I believe in cultivating supportive relationships with our clients as friends and partners and providing the best in design, development, and functionality for a better world. Welcome to Tech Andaz.

# ABOUT US

The Tech Andaz agency offers a full-suite of complete web and development services for startups to enterprise companies. Our marketing team understands advancing and converging technologies to further gain data analysis and real-time effectiveness for your marketing campaigns and goals. Our development team brings high-level experience in programming and development for software, hardware, and native mobile apps.

We offer CMS solutions and creative development for your business projects. Our social team listens to your goals and provides a strategy to implement your social media engagement and advertising campaigns to reach your audience effectively

We tell your story and create a customer experience that you can be proud of. Our writing team brings quality content to your brand, with the right messaging for your website, articles, social media and PR. We work with you, to create the on-target messaging that defines your brand with eloquence. Our design team offers a diverse background in design experience, ensuring that your business will receive the premiere web and brand design that shows the quality of your company. They provide digital design and hard copy products for all types of businesses and work with marketing to ensure the design and implementation is collaborative.
